Opinions

Solely for public libraries

"You are library gods."

Jill Brown, Director, former
Deckerville Public Library, Michigan

"Thank you for all the years. If I had that choice to make over again, I would do exactly the same thing. Eight years and you're still going strong, still improving, and I have no reason to even think about going anywhere else. Usually at this point, other companies are trying to merge us onto a new product. There's a reason you guys do so well with customer satisfaction! Keep up the good work!"

Joy Stortvedt
Shenandoah Public Library, Iowa

"Apollo is a beautifully simple system that packs a powerful punch under the hood."

Michelle Mears, Director
Rolling Hills Consolidated Library
St. Joseph, Missouri

"We've finished our first inventory with Apollo. Wow, there were a lot of issues that *[insert name of highly regarded ILS here]* never caught. There are no words."

Melissa Fulton
Mason County Public Library, Kentucky

"You guys do such great things. Thank you for listening. Out of all the ILSs that I have worked in my 30 years of library work, Biblionix is the easiest to work with."

Nicki Stohr, Director
Wilson County Libraries, Texas

"Apollo actually does what it says it can do. This is so unexpected (almost unbelievable) that my board kept asking me to 'find the catch.' There isn't a catch."

Michael Dawber, CEO/Librarian
Rainy River Public Library, Ontario

"A day doesn't go by that a staff member or patron doesn't comment on how much they like Apollo."

Lynn Piotrowicz, Director
Tucker Free Library, New Hampshire

"Thank you for your support; treating me like I'm your only concern; meeting all my circulation needs; correcting all my problems and mistakes and best of all, doing all of this with kindness and genuine delight in helping others become better."

Peggy Ashley
Post Public Library, Texas
