

Solely for public libraries; no clutter or distractions

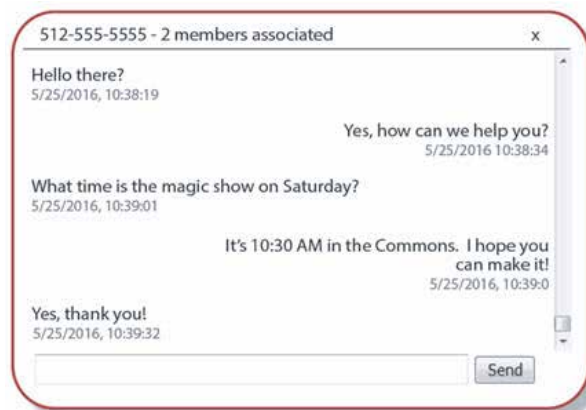

Gabbie® 2-way texting

Communicate with your patrons in an exciting new way: Two-way texting with auto-commands.

- Add an "Ask a Librarian" link on your website and emails or newsletters (*This meets the Edge Assessment, Community Value benchmark 2.3 as the "real-time reference service"*).
- Patrons can use auto-commands, like "Renew-Due". No staff action is required.
- You'll have your own SMS phone number, but no phone equipment is required. Patrons can add it to their contact list.
- Use the convenient Gabbie console to converse with patrons. Includes visual and audio alerts.
- Seamless connection to free texts for overdues and reserves and other notifications.
- Patrons requesting help after hours will receive a "library closed" reply.

• **Curbside console available.**

Energize your library with this ground-breaking communications gold mine.
