APOLLO® ILS / LSP

Solely for public libraries

*Let us Delight You!*

99+% retention rate

Delight staff and patrons alike with the Apollo ILS/LSP. It's solely for public libraries with up to 300,000 holdings and more! And it's all in the cloud with full Library Services Platform (LSP) advantages, so you get fast integrations, features, and upgrades with no technical effort needed.

Try it, free, with your data. You can see what you get before you commit to or pay anything.

- Batch Weed/Delete and Batch Edit
- "Hot" Inventorying; conducted with the library open
- Print barcode and spine labels

Other

- Self-checkout with only a PC and a scanner
- Patron Self Sign-up
- Email newsletter subscription management
- User forum for staff
- On-line help, FAQs, and free training
- Reporting: Dozens of reports with broad flexibility and export

Servers

- Apollo is a Cloud/hosted service using multi-tenant architecture. This means that you get fast updates and service, as well as hassle-free 3rd party integrations.
- For security reasons related to CPU side-channel attacks, servers are not shared; They are dedicated to Biblionx.
- Security:
  - All pages are encrypted/https
  - All of your data is stored encrypted in the database
  - All patron-related API use including SIP is 100% encrypted
- There is NO single point of failure. Servers reside in top-tier Internet datacenters with Geographic Redundancy: your data is always valid on more than one server, in more than one city, with more than one hosting service.
  - Redundant connections to multiple Internet backbones
  - Staff, equipment, and software to protect against hackers
  - 24/7 Technical support with on-site spare hardware
  - Redundant, solid state disk drives
  - Backups every 1/2 hour to even different cities
- "LDIF" for exporting library data in MARC and XML for backup and easy migration. It's your data. You can have it free, anytime

Hardware/Software Requirements

- No server is required and there's no application to install
- Browser: Patrons: any browser   Staff: Firefox, Chrome, Safari
- A high-speed (DSL, cable, or better) Internet connection for the library
- Reasonably modern hardware, on which typical Web browsing is acceptable

Extra Cost Options (all other features are included)

- Syndetics Unbound™ Readers Advisory catalog enhancement
- Auto-Calling for overdues, reserves, and more; no setup fee or equipment req'd
- Branch Support, with floating collection option
- Acquisitions module for managing your budgets and buying processes
- Gabbie℠ two-way texting and auto-commands, like 'renew all'
